

Pride and Ownership Property Owner Maintenance Program

The City of Winter Park Code Enforcement Division is inviting all absentee property owners to partnership with them in an effort to remove blighted deteriorated housing structures by forming a partnership with owners of rental properties.

This program is implemented to educate property owners so that they will understand the goal of this City. The program will encourage positive attitudes from property owners when repairs are made. Review the procedures of the code Enforcement Division. Re-examine rehabilitation practices, acceptable repairs verses unacceptable repairs. Organize workshops to gather alternatives solutions for beautifications and encourage the lessee or renter to take pride in the place, which they resided.

Questions about this program contact:
