

Partnership with Code Enforcement Compliance Program

The Partnership with Code Enforcement Compliance Program has been established to educate the Citizens of Winter Park. This program is committing to helping the citizens of this community understand the services, performances, and personnel within the Code Enforcement Division. Through this program staff focus is to identify problems and address the needs of the people within the community. In addition, programs will be scheduled to review the various zoning and property maintenance issues that affect neighborhoods and recommended ordinances, procedures, and legal issues of code enforcement. The program objective is to educate all citizens, and to encourage the maintenance of our older buildings and care for neighborhood appearances. By making our existing housing and neighborhoods safe, sound, and functional, we can significantly aid in achieving our goals.

This program with the assistance of other governmental agencies will educate citizens in the area of Code Enforcement Compliance and Alternatives through workshops. The workshops will cover the following areas, Voluntary Compliance, Housing Repairs, Rodent Infestation, Indoor-outdoor Mold, Dogs and Cats running loose, and Tenant Landlord Legal Issues and others.

Interested groups or individuals should contact Sylvia Wellon, Chief Code Enforcement Officer at 407-599-3392, or email swellon@ci.winter.fl.us to schedule an appointment. Group meetings or individual meetings are welcome.

Informational pamphlets are available by request. Please stop by our office at 401 Park Avenue South Second Floor, (City Hall), Winter Park, Florida 32789 or call 407-599-3392. The Code Enforcement Division is available to meet with organized citizen groups, Homeowner Association's, and individual citizens.

“OUR FOCUS IS TO EDUCATE OUR CITIZENS FIRST”
